Kitchener, Ontario

Education

University of Waterloo Sept 2026 - Aug 2028
Master of Mathematics, Computer Science Waterloo, Ontario

- I will pursue computational finance/scientific computing research pertaining to the decumulation of defined contribution pension plans.

University of Guelph Sept 2021 - Apr 2026
Bachelor of Computing, Computer Science (Co-op) **GPA: 92.8%** Guelph, Ontario

- *Relevant Coursework*: Systems Programming, Computer Networks and Operating Systems.

Skills

Languages:	C, C++, Python, Java, SQL, JavaScript, TypeScript, HTML, CSS
Frameworks/Libraries:	React.js, Vue.js, Spring Boot, Django, Pandas, FastAPI
Additional Skills:	Docker, Kubernetes, Grafana, Prometheus, AWS, GCP, AI, Linux, Git, CI/CD

Work Experience

Software Developer Intern May 2026 - Aug 2026
SAP Waterloo, Ontario

- Enhancing enterprise database access control through comprehensive missing-privilege reporting.

Software Developer Intern May 2025 - Aug 2025
SAP Waterloo, Ontario

- Developed an Agentic AI solution to group crash alerts with Python and the Gemini API, improving operational efficiency.
- Enhanced correlation ID usage for a testing service with Kubernetes and Python, saving 26 hours of time per year through improved log traceability.
- Enhanced a crash analysis tool with Python and Grafana, reducing manual work by 139 hours yearly.

Data Engineer Intern Jan 2025 - Apr 2025
CPP Investments Toronto, Ontario

- Delivered 12 REST API implementations for a Data Platform as a Service with Python, API Gateway (AWS), and Terraform, enabling dynamic service deployment.
- Converted application tables from Hive to Apache Iceberg, resulting in a 38% reduction in query times.

Software Developer Intern May 2024 - Dec 2024
EcoTank Canada Orangeville, Ontario

- Researched, designed, and implemented a new role-based access control system with JavaScript, Firebase and Vue.js, doubling permission support across the application.
- Programmed a notification system for overdue service tickets using hash maps, leading to a 73% reduction in overdue tickets.

Teaching Assistant Jan 2024 - Apr 2024
University of Guelph Guelph, Ontario

- Conducted weekly office hours and lab sections for Intermediate Programming, helping students learn advanced C programming concepts such as pointers and dynamic memory allocation.

Projects

Grade Me *C++, Object Oriented Programming*

- Designed and implemented a C++ application that analyzes student grades for a variety of parameters.
- Used classes to group related functionality, promote coude reuse and minimize future bugs.

PyroMetric *Python, JavaScript, React.js, GCP, Gemini API, Vertex AI*

- Developed an Agentic AI application to rank and score GitHub accounts by a variety of code quality metrics.
- Implemented an API to analyze and score GitHub accounts by code quality with Python, Gemini and Vertex AI.
